Chechu is professional, courteous, and gets the job done no questions asked. What an amazing designer and the best experience I've had on eLance so far. Don't walk, run to hire Chechu! I look forward to hiring him for my future projects!

Robert Vilchez

This freelancer was very helpful in trouble shooting issues and maintained communication throughout project. As communication is key in first understanding a task and then executing, this process worked smoothly and was professional and competent right to the end. Thoroughly recommend for similar projects and/or consulting for IT/Design services.
